Erratum

J. Yang, B.A. Malomed, D.J. Kaup, and A.R. Champneys, "Embedded solitons: a new type of solitary waves". Mathematics and Computers in Simulation, 56, 585 (2001):

Eq. (5) should read:

$$-\frac{1}{2}\delta V'' + (q - 2k)V + \frac{1}{2}U^2 + 2\gamma_2(V^2 + 2U^2)V = 0. \qquad (5)$$

That is, a factor of 2 in front of γ_2 was missed in the original paper.
