DONOR IMPACT

CAS Internship Program

Summer Internship Scholarship Program

Since summer 2015, the College of Arts & Sciences has provided students with internship scholarships to help them cover living expenses while taking on unpaid opportunities. Over that time, we have been able to fund 37% of applicants and meet 41% of total monetary ask. Your support would allow us to support more students doing internships during the summer months; a key time in a student's career in which they have the freedom to explore outside the classroom.

Annual Need: \$500,000
Students supported: 120

Generally rising juniors or seniors. All majors encouraged to apply.

Global Career Accelerator

A partnership with Podium Education, this 4-credit program allows students to engage with global companies and nonprofits (like Intel, The Grammys, Uber, Spotify, Meta, Charity Water, the United Nations, and more) through several tracks: Digital Marketing, Coding for Web, Data Analytics, and Coding for Data. Ideal for liberal arts students looking to develop marketable skills.

Annual Need: \$270,000
Students supported: 150

This program enrolls a higher percentage of BIPOC and in-state students.

The Washington Center: D.C.

UVM partners with the nation's largest internship organization, The Washington Center, to send students to D.C. for internships in a wide variety of interest areas. UVM students live and work alongside students from across the country while earning a full semester's worth of credit.

Annual Need: \$65,700
Students supported: 10

Students of all majors and years.

Semester in the City: Boston

UVM partners with the College for Social Innovation's Semester in the City program to send students to Boston for internships in the nonprofit and social sectors. On top of their internship, students complete courses in social innovation and entrepreneurship to help them find connections between their liberal arts education and helping professions.

Annual Need: \$160,000
Students supported: 40

Recruitment focus: Pell-eligible, first-generation, and Vermonters

Communities of Practice

In CAS's Communities of Practice (COP) internship program, interns work in teams to build their skills while completing work in a professional setting for external organizations. Some will work 1:1 with an organization, while others will focus on a particular project or group of projects for community partners. Each COP cohort is lead by a professional currently working in their field.

Annual Need: \$15,000
Students supported: 250

Recruitment focus: first-time interns.

Internship Program Fund

The College of Arts & Sciences Internship & Experiential Learning program relies on donor funds to cover program costs and expenses that interns may incur as part of their unpaid internships (transportation, research costs, etc.)

Annual Need: \$10,000

Summer Internship Scholarship **\$4,100**
Cover living expenses (rent, food, travel, etc.) for a student doing a summer unpaid internship in their chosen field.

Signature Summer Internship **\$2,100**
Help cover an intern's living expenses while they work with one of our community partner sites: Vermont Public, the Fleming Museum, and more.
Host site pays the student another \$2,000.

Global Career Accelerator **\$1,800**
Cover a student's program fee while they work several micro-internships within a focus track with the Global Career Accelerator. For many, the program fee stops them from doing this program altogether.

The Washington Center: D.C. **\$6,570**
Cover a student's housing fee while they work for 32 hours per week in Washington D.C. at an internship site of their choice. Students earn a full semester's worth of credit.

Semester in the City: Boston **\$4,000**
Cover a student's housing fee while they intern for 32 hours per week in Boston's social sector and explore careers in social change and non-profits. Students earn a full semester's worth of credit.

Communities of Practice **\$5,000**
Help launch a new Community of Practice (COP) program! Your donation allows us to compensate a COP instructor to develop and secure 20 internship placements in advance of the start of a new COP.

Intern Program Intern **\$500**
Contribute toward a paid intern working with Internship Program staff.

Course Materials **\$100**
Help cover tools used by students in the Communities of Practice Program (audio editing, transcription software, etc.)

Travel Stipend **\$250**
Help a student cover gas to get to and from their internship site.

Research Fees **\$50**
Help cover information access requests for interns completing research projects for internship sites.
