

PHD PROGRAM IN DEVELOPMENTAL PSYCHOLOGY AT THE UNIVERSITY OF VERMONT

About the program

The PhD program in Developmental Psychology at UVM provides training in a variety of developmental methods and techniques, including longitudinal study design, statistical methods, and research involving home, school, and community contexts. Drs. Jamie Abaied, Alexis Brieant, and Annie Murray-Close will each be reviewing applications for their labs in 2024 (for students who will begin Fall 2025). They are also open to co-mentorship of students. Learn more about their work below!

Dr. Jamie Abaied (she/they), who runs the Family Development Lab, is recruiting a PhD student with interests in critical whiteness studies, racial socialization, parenting, coping with stress, and/or psychophysiology. Learn more at <https://site.uvm.edu/famlab/>. ✉ jamie.abaied@uvm.edu

Dr. Alexis Brieant (she/her) directs the Family, Environment, Resilience, and Neurodevelopment (FERN) Lab and is recruiting a PhD student with interests in child and adolescent adversity, brain development, and mental health. Learn more at fernlab-uvm.edu. ✉ alexis.brieant@uvm.edu

Dr. Annie Murray-Close (she/her), who runs the Social Development Lab, is recruiting a PhD student with interests in peer relationships, gender, aggression, and stress physiology. ✉ dianna.murray-close@uvm.edu
Learn more at <https://site.uvm.edu/socldcvl/>

Application deadline 12/1/24
